

Logging into the OLS

Look in your email inbox for an email from K12 containing your Registration ID. You will need this Registration ID and the phone number you used when setting up your account.

Go to www.k12.com and click on OLS Login

Choose "Set Up Your Account" under the Account Registration

Fill in your Registratin ID and your Phone Number

A screenshot of the K12 'Account Setup' page. The page is divided into three steps: 1. Enter registration ID, 2. Set up your account, and 3. Set up your students' account. The first step is active. It contains a text box for 'Registration ID' and a text box for 'Phone number'. An arrow points from the text 'Fill in your Registratin ID and your Phone Number' to the 'Registration ID' field. There is also a 'Continue' button at the bottom right of the form.

You now create your username and password. Once this is created, you will simply go back to the OLS Login and enter this username and password into the Log In area. Remember your username/password, you will log in with it each day from now on.
